	1 to 12 stations (Up to 24 solenoid coils)		1 to 10 stations (Up to 20 solenoid coils)

* The maximum number of stations displayed in parentheses is applied to the special wiring specifications. (Option "K")
The maximum number of stations is determined by the total number of solenoids. (Single solenoid type: 1 point, Double solenoid type: 2 points)
Make sure that the total number of solenoids does not exceed the maximum number of stations. Additionally, when combining with option parts, make sure that the maximum number of stations is not exceeded.

All other specifications are the same as the standard products Series VQC.
